HYDROPEL

Repel Water In Over 600 Colors

Water-resistant, Non-PFC DWR finish, wind-resistant, anti-wicking, breathable, soft and super lightweight, available in Matte and High Gloss finish, over 600 colors, and resists water on impact as determined by the AATCC 35 Rain Test.

- Available in Reverse Coil Zipper
- Water Resistant: Treated with Teflon EcoElite™ Biobased WR Finish; Resists Penetration of water on impact as determined by AATCC35-2000
- Wind Resistant: Tape is tightly woven to effectively block wind
- Anti-Wicking: Each yarn is chemically treated so it doesn't absorb moisture keeping the zipper dry inside & out
- Breathable: 100% breathable through micropores in the woven tape allowing moisture to escape and ensuring dryness and comfort
- Available in Shiny or Matte Finishes
- Available in over 600 colors
- Soft, Pliable, and Super Light Weight
